ABOUT APPLIED

Applied Industrial Technologies is a leading distributor of bearings, power transmission products, engineered fluid power, specialty flow control solutions, and other industrial supplies, serving MRO and OEM customers in virtually every industry. In addition, Applied provides engineering, design and systems integration for industrial and fluid power applications, as well as customized mechanical, fabricated rubber, fluid power, and flow control shop services. Applied also offers storeroom services and inventory management solutions that provide added value to its customers.

Simply stated - We Keep Industry Running... Productively.

OVERVIEW

We are excited about the future at Applied, supported by a secure financial position, committed associates, best-in-class suppliers and, of course, our growing customer base. Propelling us forward is our rich heritage of 95 years of leadership in industrial distribution, built on a solid foundation of quality brands, innovative solutions, dedicated customer service, the highest ethical standards and a commitment to our Core Values.

With our strong foundation and significant position as a well-diversified industrial distributor, we have much to offer and even greater potential... serving customers, further enhancing our value-add capabilities and delivering on our commitment to generate shareholder value.

INVESTMENT CONSIDERATIONS

HEALTHY BALANCE SHEET:

Applied maintains a strong balance sheet, which provides flexibility in pursuing appropriate opportunities for growth and generating shareholder value. At March 31, 2018, Applied's current ratio (current assets to current liabilities) was 2.8 to 1. Applied had \$1,039.0 million in debt outstanding at March 31, 2018.

SOLID CASH FLOW:

Applied continues to generate strong cash flow, which enables us to invest for future growth and create value for shareholders. Cash provided by operations was \$47.9 million for the nine months ended March 31, 2018. Working capital at March 31, 2018 was \$681.3 million, improved as a percentage of sales by 175 basis points year over year. As a result of the U.S. tax reform, we expect to generate incremental cash benefit as the company moves to the go-forward 21% statutory rate in fiscal year 2019.

DIVIDEND POLICY:

We are committed to generating increased shareholder value, including paying an attractive dividend. In January 2018, we declared an increase in the quarterly cash dividend to \$0.30 per common share, which correlates to a current annual dividend rate of \$1.20 per common share. This represented the ninth consecutive year of dividend increases.

CORPORATE GOVERNANCE:

Applied is committed to integrity in corporate governance and transparency in financial reporting. Applied's Board of Directors is a diverse group of seasoned executives who represent shareholders' best interests.

SELECTED HIGHLIGHTS

PROFITABLE SALES GROWTH:

Net sales for the nine months ended March 31, 2018 increased 13.8% over the prior year. Our solid results reflect broad-based execution across our business groups, along with the expected two-month contributions from the recent acquisition of FCX Performance. On February 1, 2018, we announced the completion of the FCX Performance, Inc. (FCX) acquisition. FCX is a leading distributor of specialty process flow control products and services. The company brings us leading, value-added specialty flow control expertise with premier brands, high-touch technical service, an extensive footprint, and strong customer relationships. Together, our combined resources will make Applied a leading technical solutions provider with significant opportunities for growth.

Moving forward, we maintain continuity and focus on our long-range strategic plan, including five growth

Core Growth – growing our core sales and marketing capabilities across 600 locations - leveraging our local market presence and plans to expand with existing accounts and new customers

Product Expansion – driving results beyond our base offerings - with opportunities across all of our product groups

Fluid Power & Flow Control – building upon our leadership position in North American markets – leveraging our value-added services and expanding product offering for OEM customers, and gaining increased share of MRO end users

Operational Excellence – driving continuous improvements across the business and realizing the full potential from our ERP systems and Applied.com investments

Acquisitions – with a productive M&A pipeline, staying active in extending our business reach and expanding Applied's capabilities to serve industrial customers in our geographic markets

We are excited about the significant opportunities for growth and our expanding value-added capabilities that further enhance our differentiation and provide benefits for all Applied stakeholders.

MARGIN ENHANCEMENT:

Applied's gross profit percentage was 28.5% for the nine months ended March 31, 2018. Our operating margin was 7.1%, 50 bps improved from prior year. .

COST CONTROL:

SD&A expense as a percentage of sales was 21.4% for the nine months ended March 31, 2018, which includes \$6.2 million of one-time FCX transaction-related expense. SD&A spend as a percentage of sales improved 30 bps year over year.
